2.2. Authorizations may be executed under this Areawide Contract at any time during the term of this Areawide Contract. The Areawide Contract shall be for a term of ten (10) years. The term of any Authorization executed under this contract may be for a term of up to ten (10) years, which term may extend beyond the term of this Areawide Contract. ARTICLE 3. EXISTING CONTRACTS.

3.1. The parties agree that an Agency currently acquiring Service from the Contractor under a separate written contract may continue to do so until that contract expires or until such time as the Ordering Agency and the Contractor mutually agree to terminate that separate written contract and have such Service provided pursuant to this Areawide Contract by executing an appropriate Authorization or Authorizations.

Such changes are considered internal to the party involved. Where changes are required in effective Authorizations because of a change in the Service requirements of an Ordering Agency, an amended Authorization shall be mutually agreed upon and executed.

4.3. An Ordering Agency or the Contractor may discontinue Service provided pursuant to this Areawide Contract to a particular Federal facility or installation by delivering a written Termination Authorization to the other. Such discontinuance of Service by an Ordering Agency or the Contractor shall be in accordance with the terms of this Areawide Contract and the Contractor's Tariffs.

4.4. In the event the Areawide Contract is not renewed at the expiration of the contract term, any active Authorizations for Services shall be controlled by the Areawide Contract terms and conditions in effect at the time of award.

The Contractor hereby represents and warrants to the Government that the Service rates available to any Ordering Agency hereunder shall at all times not exceed those available to any other customer served under the same Service Classification for the same or comparable Service, under like conditions of

The Authorization or any other agreement used to obtain and provide the matters, Services, or technical assistance described in this Article 5.6 shall contain information descriptive of the matters, Services, or technical assistance required or requested, including the amount of (or method to determine) any payment to be made by the Ordering Agency to the Contractor for the provision of said matters, Services, or technical assistance.

5.7. 14.2 Unregulated Services.

Pursuant to this Areawide Contract, the Contractor may provide energy related services that are not subject to rate and tariff regulations by the Commissions under a pre-approved alternative (FAR 52.241-8) that demonstrates the Contractor will provide these services under terms and conditions that are competitive and otherwise in the best interests of the Ordering Agency. If, as demonstrated by the Ordering Agency, the conditions for use of this pre-approved alternative cannot be satisfied, then the Ordering Agency should consider the requirement of the Competition in Contracting Act of 1984 and the extent to which a competitive acquisition process is required to select and award a contract for these unregulated services. If an Authorization under this Areawide Contract is utilized, the prices and terms and conditions for unregulated services offered by the Contractor shall be negotiated subject to the requirements of FAR 41.5, subject to the general requirements of FAR 52.241-8.

14.3 Repeal of Clauses During Term of Areawide Contract.

If, during the Term of this Areawide Contract, any of the clauses contained in this Article are repealed, revoked, or dissolved by the Government, then such clauses shall no longer be part of this Areawide Contract as of the date of such repeal, revocation, or dissolution. The elimination of these clauses by reason of such repeal, revocation, or dissolution shall not affect the continuing validity and effectiveness of the remainder of this Areawide Contract or other clauses referenced in this Article. The parties' conduct thereafter shall be modified accordingly and reflect the repeal, revocation, or dissolution as related to their respective rights and obligations hereunder.

14.4 Clauses Incorporated in Full Text.

(a) 52.241-7 Change in Rates or Terms and Conditions of Service for Regulated Services (FEB 1995)

The items included in Contractor's Tariff are available to the government and any Ordering Agency electronically at the Contractor's website, www.firstenergycorp.com. Contractor shall comply with the Commission's regulatory requirements applicable to notifications to Contractor customers for changes to Contractor's Tariff.

(b) The requirements of the Disputes clause at Federal Acquisition Regulation (FAR) 52.233-1 are supplemented to provide that matters involving the interpretation of tariffed retail rates, tariff rate schedules, and tariffed terms provided under this Areawide Contract are subject to the jurisdiction and regulation of the utility rate commission having jurisdiction.

(End of clause)

14.5 State Taxes.

The contract price excludes all State and local taxes levied on or measured by the Areawide Contract or sales price of the Services or completed supplies furnished under this Areawide Contract. The Government agrees either to pay the amount of the state or local taxes to the Contractor or provide evidence necessary to sustain an exemption from such taxes.

ARTICLE 15. SMALL BUSINESS SUBCONTRACTING PLAN.

15.1. Attached hereto and made a part hereof by reference is a SUBCONTRACTING PLAN FOR SMALL BUSINESS CONCERNS, SMALL BUSINESS CONCERNS OWNED AND CONTROLLED BY SOCIALLY & ECONOMICALLY DISADVANTAGED INDIVIDUALS, HUB ZONE BUSINESS CONCERNS, WOMAN OWNED SMALL BUSINESS CONCERNS, VETERAN-OWNED SMALL BUSINESSES CONCERNS AND DISABLED VETERAN-OWNED BUSINESSES negotiated between the Contractor and the Government, which is applicable on a company wide basis pursuant to the requirements of Section 211 of P.L. 95-507, as amended (15 U.S.C. 637(d)). The Contractor expressly understands that this subcontracting plan is an annual plan and hereby agrees to submit a new subcontracting plan by November 30th of each year during the Term of this Areawide Contract.

15.2. Information and announcements concerning current developments in the GSA Small Business Subcontracting Program are available on the GSA Energy Division web site accessible via <http://www.gsa.gov/energy>.

ARTICLE 16. NOTICES.

16.1. Unless specifically provided otherwise, all notices required to be provided to the Government under this Areawide Contract shall be mailed to: U. S. General Services Administration, PBS, Office of Facilities, Energy Division (PMA), 1800 F Street, NW, Washington, DC 20405 or via email at energy@gsa.gov.

16.2. All inquiries and notices to the Contractor regarding this Areawide Contract shall be mailed to: Valerie Shearer, Account Manager, (330) 384-5016 or vshearer@firstenergycorp.com or to such other person as the Contractor may hereafter designate in writing, with a copy mailed to Senior Vice President & General Counsel, FirstEnergy Corp., or to such other person as the Contractor may hereafter designate in writing.

16.3. The Ordering Agency shall provide GSA with a copy of all fully executed Exhibits including any applicable attachments at the address provided in Article 16.1.

ARTICLE 17. REPORTING.

17.1 The Contractor shall provide, as prescribed and directed by the Contracting Officer, an annual report on Subcontracting Plan Achievements, in accordance with the approved subcontracting plan for small business concerns and small business concerns owned and controlled by socially and economically disadvantaged individuals by October 30 of each year during the Term of this Areawide Contract. The report shall be submitted electronically utilizing the Small Business Administration's Electronic Subcontracting Reporting System. The website address of system can be found at <http://www.esrs.gov>.

ARTICLE 18. UTILITY ENERGY SERVICE CONTRACTS.

18.1. Measurement and verification: Energy Conservation Measures (ECM) will not be normally considered unless a net overall energy usage or cost reduction can be demonstrated and verified. Verification standards for energy projects are established in the North-American Energy Measurement and Verification Protocol (NEMVP), published by the Department of Energy's Federal Energy Management Program (FEMP), or as agreed in the Authorization.

18.2. Unless otherwise provided by law or by mutual agreement, the following provisions shall apply:

(a) Payment for energy conservation measures, when authorized as Energy Management Service (EMS), shall be equal to the direct cost of capital or financing amortized over a negotiated payment term commencing on the date of acceptance of the completed installation;

(b) The payment term for Authorizations involving energy conservation measures should be calculated to enable the Ordering Agency's payment(s) to be lower than the estimated cost savings to be realized from its implementation. In no event, however, shall this term exceed eighty percent (80%) of the useful life of the equipment/material to be installed.

18.3. Subcontracting: The Contractor may perform any or all of its requested Services through subcontractors, including its unregulated affiliates. ECM subcontractors shall be competitively selected in accordance with FAR 52.244-5 (Competition in Subcontracting) (DEC 1996) (See Article 14). Subcontractor selection shall be based on cost, experience, past performance and other such factors as the Contractor and the Ordering Agency may mutually deem appropriate and reasonably related to the Government's minimum requirements. Upon request by the Government, the Contractor shall make available to the Contracting Officer all documents related to the selection of a subcontractor. In no event shall the Service be provided by subcontractors listed as excluded from Federal Procurement Programs maintained by GSA pursuant to 48 C.F.R. 9.404 in accordance with 52.209-6 (Protecting the Government's Interest when Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment (OCT 2015) (See Article 14)).

18.4. For all Authorizations involving Energy Conservation Measures, it is desirable to have a Warranty Clause that addresses the specific needs and requirements of the work being performed and equipment that is to be provided by the Contractor; however, in the absence of a Warranty Clause in the Authorization, the following language will serve as the default Clause:

If applicable and to the extent feasible, the Contractor shall pass through to the Ordering Agency all warranties on equipment installed or provided by it or its subcontractors on Government property with the following representation:

CONTRACTOR ACKNOWLEDGES THAT THE UNITED STATES OF AMERICA WILL OWN OR LEASE

THE EQUIPMENT AND/OR MATERIALS BEING INSTALLED OR SUPPLIED HEREUNDER, AND, ACCORDINGLY, AGREES THAT ALL WARRANTIES SET FORTH HEREIN, OR OTHERWISE PROVIDED BY LAW IN FAVOR OF GOVERNMENT SHALL INURE ALSO TO THE BENEFIT OF THE UNITED STATES AND THAT ALL CLAIMS ARISING FROM ANY BREACH OF SUCH WARRANTIES OR AS A RESULT OF DEFECTS IN OR REPAIRS TO SUCH EQUIPMENT OR SUPPLIES MAY BE ASSERTED AGAINST CONTRACTOR OR MANUFACTURER DIRECTLY BY THE UNITED STATES OF AMERICA.

18.5. The Ordering Agency shall submit to GSA a copy of all preliminary energy audit results or energy conservation measure analysis for review and compliance with Federal regulations and policy. Upon written acknowledgement from GSA of receipt of the aforementioned information, a copy of which shall be provided by the Ordering Agency to the Contractor, the Ordering Agency may negotiate Task Orders with the Contractor for the implementation of the energy conservation measures described in the preliminary documents. The Ordering Agency shall provide GSA with copies of fully executed Exhibit "B" Authorizations for any Energy Management Services resulting from confirmed/approved energy audits, including any applicable attachments, at the address provided in Article 16.1. The Contractor shall provide final project schedules through the eProject Builder system <https://eprojectbuilder.bl.gov>

18.6. Contractor's Responsibilities under this Areawide Contract:

(a) The Contractor shall not provide Energy Management Service to Federal facilities unless the facility is a current customer or prospective customer of the regulated utility within the franchised service territory of the utility company providing such services under this Areawide Contract.

(b) The work that is to be performed under the Authorization for Energy Management Services shall be limited to work resulting in a direct reduction in energy usage (see Article 1.1(k)) and any modification or repair that is necessary as a direct result of the installation of the ECM.

18.7. Guaranteed Savings and Scoring of UESC's by the Ordering Agency(ies):

UESC's that meet the definition of "Energy Management Service" ("EMS") prescribed in Article 1.1(k) of this Areawide Contract, and which follow the guidance prescribed in OMB Memoranda M-12-21 and M-98-13, may be scored for budgetary purposes by the Ordering Agency(ies) on an annual basis if the UESC requires:

- a. Energy savings performance assurances or guarantees of the savings to be generated by improvements, which must cover the full cost of the Federal investment for the improvements;
- b. Measurement and verification (M&V) of savings through commissioning and retro-commissioning; and
- c. Competition or an alternatives analysis as part of the selection process prior to entering into a UESC

18.8. In order to assure the necessary fiscal responsibility consistent with sound program management, alternatively financed UESC's should include a plan for continued action during the contract to assure continued accomplishment of expected performance (this is referred to as a Performance Assurance or Performance Verification Plan). The level of performance assurance (M&V) and its associated costs should be worth the level of certainty of cost savings that the Ordering Agency reasonably deems to be necessary. Each alternatively financed UESC should have a performance assurance plan to accomplish this. Such plans should provide for the separate evaluation of each energy conservation measure and combination of measures in order to identify the appropriate level of needed performance assurance activity based on the technical complexity, potential savings magnitude, and specific situation. (See Overview of the Measurement and Verification for Federal Energy Projects Guidelines Version 2.2 or FEMP Fact Sheet - Performance Assurance for Multi-Year Contracts Under the Utility Incentive Program for further guidance.) Inclusion of and compliance with the performance assurance plan in the specific project task order satisfies the requirements of Contractor under Sections 18.1 and 18.7.

ARTICLE 19. MISCELLANEOUS.

19.1. Contract Administration: The Ordering Agency shall assist in the day-to-day administration of the Service being provided to it under an Authorization.

19.2. Anti-Deficiency: Unless otherwise authorized by Public Law or Federal Regulation, nothing contained herein shall be construed as binding the Government to expend, in any one fiscal year, any sum in excess of the appropriation made by Congress for that fiscal year in furtherance of the matter of any Authorization executed in accordance with this Areawide Contract or to involve the Government in an obligation for the future expenditure of monies before an appropriation is made (Anti-Deficiency Act, 31 U.S.C. 1341.A.1).

19.3. Obligation to Serve: Nothing contained in this Areawide Contract shall obligate the Contractor to take any action which it may consider to be detrimental to its obligations as a public utility.

19.4. Term of Authorizations: It is recognized that during the Term of this Areawide Contract, situations and/or requirements may arise where it may be desirable that the term of service to an Ordering Agency's facility extend beyond the Term of this Areawide Contract. In such event, the particular Authorization involved may specify a term extending beyond the Term of this Areawide Contract, provided that it is within the contracting authority of the Ordering Agency and appropriate termination liability provisions have been negotiated between the Contractor and Ordering Agency to address unamortized balances for connection charge or energy management service projects.

19.5. Indemnification: Any indemnification language contained in standard form agreements executed between the Ordering Agency and the Contractor shall be binding upon the Federal Government only to the extent authorized by opinions of the Government Accountability Office and the Federal Torts Claims Act.

19.6. Exhibit Procedure: The execution of an exhibit by Contractor and an Ordering Agency shall not supersede a previously executed exhibit addressing the same service unless specifically stated. Allowable terms of exhibits shall be consistent with the guidance and policy set forth in Article 2.2 of this Areawide Contract.

19.7. Davis Bacon Act: Since this Areawide Public Utility Contract does not involve the regulated utility company performing on a Federally funded or assisted contract for the construction, alteration, or repair of a public work and/or public facility, the Davis Bacon Act does not apply to the work to be performed by the regulated utility company in connection with the provision of regulated utility services. However, if a determination by the Department of Labor (DOL) differs, the regulated utility company will be solely responsible for any financial liability for any contrary determination by DOL.

IN WITNESS WHEREOF, the parties have executed this Areawide Contract as of the day and the year first above written.
